Security Intelligence
Public Report

IN PARLIAMENT ON SEPTEMBER 18, 2001,
LIBERAL AND NDP MPs VOTED AGAINST
THE FOLLOWING MEASURES TO COMBAT
INTERNATIONAL TERRORISM:

-  The naming of all known international terrorist organizations operating in Canada.
-  A complete ban on fundraising activities in support of terrorism.
-  Immediate ratification of the International Convention for suppression of terrorist financing.
-  Creation of specific Criminal Code offences for engaging in terrorist training in Canada, or inciting terrorist attacks abroad from Canada.
-  Prompt extradition of foreign nationals charged with acts of terrorism—even if charges are capital offences.
-  Detention and deportation of any person illegally in Canada, or failed refugee claimants who are linked to terrorist organizations.

Questions

1) Should the Federal government close the loopholes in Canada's refugee policies by detaining or deporting all illegal, unauthorized and undocumented people who arrive in Canada until their identity can be established?

2) Do you believe that the federal government has an obligation to better equip the men and women serving in Canada's Armed Forces by increasing the amount of money spent on defence?

3) Tightening security at the Canada US border will restrict the free flow of trade and hurt our economy; should our government instead work with the United States to establish a North American security perimeter as a way to prevent terrorists from entering both countries?
